Not illustrated. 1910 Excerpt: .six quick detachable connections, the sub-frame can be drawn forward, or entirely removed in a few minutes, and again replaced in an equally short time, just as easily as opening a door, placing the entire power plant at one s finger tips, making inspection, and adjustments easy at all times, without holding up the car in service. This factor of accessibility is of vital importance, as it means an enormous saving of time and money--with a guarantee of the car being ready for service every hour of every working day. The one live burning question that should be uppermost in the mind of a prospective purchaser of a commercial truck is: What will it cost the first, second and years thereafter? In this particular respect the Grabowsky shines over all competitors--this needs explaining. There are 38 working connections, on the Grabowsky that are protected with hardened steel bushings which take up the wear. After these bushings have worn under normal use--to replace the entire 38 connections with new bushings will cost six dollars. To replace these working connections from normal use on any other power wagon would cost the owner three hundred to six hundred dollars as replacements would consist of whole parts or sections. Just stop and think of the phenomenal advantages of merely these two exclusive Grabowsky features--the wonderful accessibility, which means a guarantee of almost continuous service, and a tremendous saving of time and money. Take Grabowsky lubricating system--no adjustments to same. It being...
